## Report

Title of Workshop: 'Repurposing the Drugs'

Speaker: Dr. Ravindra Purohit  
Director  
RN Pharma Consulting  
Pune  
Maharashtra, India

Date: 21-05-2020

One day workshop on 'Repurposing the Drugs' was organized by IQAC cell of Kamla Nehru College of Pharmacy Butibori on 21<sup>st</sup> May 2020 through virtual mode using Zoom plat form. Dr. Ravindra Purohit was the speaker for the program. Program was started with the introduction of speaker by Mr. M. D. Godbole. Principal Dr. J. R. Baheti welcomed the speaker. Sir highlighted the areas where Dr. Ravindra Purohit worked. **All faculties and PG students attended the program.**

During the talk, Dr. Ravindra Purohit said that drug repurposing is a strategy for identifying new uses for approved or investigational drugs that are outside the scope of the original medical indication. He discussed that, high attrition rates, substantial costs and slow pace of new drug discovery and development, repurposing of 'old' drugs to treat both common and rare diseases is increasingly becoming an attractive proposition because it involves the use of de-risked compounds, with potentially lower overall development costs and shorter development timelines. He suggested various data-driven and experimental approaches for the identification of repurposable drug candidates. He also discussed technological and regulatory challenges that need to be addressed. He also given presentation on molecules he is working.
