ACTION TAKEN REPORT

(2018-19)

Most of the stakeholders are to a major extent satisfied with the academic syllabus and confirms that it meets the industrial requirements, sufficient availability of reference material and books for the topics mentioned in the syllabus, the possibility to cover the syllabus timely. Suggestions from teachers about the curriculum were taken into consideration. As per employer's feedback, syllabus should meet the requirements of industry to groom the students and compete them globally. Hence new topics like Nuclear Chemistry and Quality by Design should be added, which will be helpful to students to gain knowledge about pharmaceutical applications of Nuclear Chemistry and QbD. The same has been communicated to the Chairman, Board of Studies and Academic Council of RTM Nagpur University, Nagpur by the Principal of the Institute. Institute Internal Board of Studies and Academic Monitoring Committee has put more emphasis on communication skills, problem solving attitude, employability skill and planned to give extra inputs to develop their analytical abilities. Moreover, we have decided to incorporate these topics in the list of content beyond syllabus and shall teach to the third and final year students from next academic year.
