

ENTREPRENEURSHIP CELL 2024-2025

The entrepreneurship cell at college level was formed in 2025 and has organized awareness camps to motivate students to become entrepreneurs. The objectives of the cell are to motivate and train students towards pharmaceutical Sciences so that students become job creators rather than job seekers.

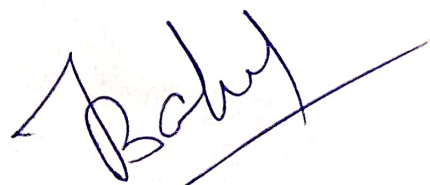

Objectives:

- To organize Entrepreneurship Awareness camps, Entrepreneurship Development Programme, Faculty Development Programme and Skill Development Programme in the institutions for the benefits of students.
- To initiate two innovative students projects each year for new innovative product development.
- To guide and assist prospective entrepreneurs on various aspects such as preparing project reports, obtaining project approvals, loans and facilities from agencies of support system, information on technologies, etc.
- To arrange interaction with Entrepreneurs and create a membership scheme for student entrepreneur
